Attention: Mr. Larry Pirtle

RECEIVED

JUL 18 1983

E.P.A. - REGION 5
STATE OF ILLINOIS

Pursuant to Title 35: Illinois Administrative Code, Subtitle G, Subpart F, it has been determined that your hazardous waste storage impoundment located within your facility near Granite City, Illinois meets the applicability requirements under Section 725.90 of said Subpart and must comply with the requirements and standards thereunder. These rules require a comprehensive ground water monitoring program, and detailed record keeping and reporting at all facilities which manage hazardous waste in a surface impoundment, landfill, or land treatment facility.

By this letter, I am giving notice that an inspection of the subject requirements will be conducted within two weeks by a representative of this Agency. All pertinent data and information necessary for conducting the inspection should be available for review.

Enclosed is a sample inspection checklist, with those sections applicable to your facility, which will be utilized for the inspection. Please forward this to your staff or representative responsible for the maintenance of any pertinent information.

If you or your representative have any questions or the desire to schedule a specific meeting date for the inspection, please contact Perry Mann at this office as soon as possible. Your cooperation in these matters will be appreciated.

Sincerely,

Kenneth G. Mensing, Southern Region Manager
Land Field Operations Section
Division of Land Pollution Control
